PROFILE

Holder of a Specialized Technician Diploma in Full-Stack Digital Development and a Professional Bachelor's Degree in Computer Engineering. I am a results-driven full-stack developer based in Casablanca. I build structured web applications, with front-end development using **React.js** & **Tailwind CSS**, and back-end development using **Laravel** & **MySQL**. I also have hands-on experience with **WordPress**, which I used together with **Elementor** and several plugins to design and launch a complete website . I am looking for a position where I can apply clean architecture, polished interfaces, and solid backend logic in a demanding technical environment.

TECHNICAL SKILLS

- **Front-end** : HTML5 , CSS3 , Tailwind CSS , Bootstrap , JavaScript (ES6+) , React.js
- **Back-end** : PHP , Laravel , SQL
- **CMS**: WordPress, Elementor (page builder) , plugins
- **Databases** : MySQL
- **Systems Modeling** : UML
- **Methodologies** : Agile , SCRUM
- **Tools** : Git , GitHub , XAMPP , Postman

PERSONAL SKILLS

- Teamwork
- Organization and project management
- Attention to detail
- Analytical thinking and problem-solving
- Self-learning
