PROFILE

Junior Full Stack Developer with a Specialized Technician Diploma in Full Stack Digital Development and a Professional Bachelor's Degree in Computer Engineering. I have practical experience designing and developing full-stack web applications through several personal and practical projects. Proficient in **React.js**, **Laravel**, **PHP**, **Tailwind CSS**, and **MySQL**, I can build modern user interfaces, design **REST APIs**, and manage relational databases. Motivated, detail-oriented, and analytical, I am seeking to join a technical team and contribute to the development of high-performance, scalable web solutions.

TECHNICAL SKILLS

Front-End Development : HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap

Back-End Development : PHP, Laravel, API REST

Databases : MySQL, SQL

Development Tools : Git, GitHub, Postman, XAMPP

CMS : WordPress, Elementor, plugin management

Design & Methodologies : UML, Agile, Scrum

PROJECTS

Tradezy | Multi-Vendor E-commerce Marketplace **React.js, Laravel, Tailwind CSS, MySQL, API REST**

Designed and developed a full-stack e-commerce platform enabling multiple independent sellers to market their products through a centralized marketplace.

Arghen Association | Water Consumption Billing System **React.js, Laravel, Tailwind CSS, MySQL, API REST**

Designed and developed a web-based management application to meet the operational needs of a village association, facilitating member tracking and water-consumption management.
